

## SkyeTek, Inc Certificate of RoHS Conformance

SkyeTek, Inc hereby certifies that the following products meet or exceed the requirements set forth by the EU directive 2002/95/EC of 27 January 2003 and the China RoHS directive for the restriction of the use of certain hazardous substances in electrical and electronic equipment:

M2-MH, M2-CF, M4, M7, M9-CF, M9-MH, M1-RC, M1-Mini-RC, HF Multiplexer, UHF Multiplexer

SkyeTek, Inc has undergone the following processes to assure RoHS compliance:

- All products are engineered and designed with only RoHS compliant parts
- Suppliers have documented the compliance status of relevant products
- Manufacturers have certified that production practices are RoHS compliant
- Manufacturers have certified that RoHS compliant solder products are used
- We have introduced new part numbers, where appropriate, for all new compliant products to identify and segregate compliant stock from product that was previously non-compliant

SkyeTek's RFID reader modules and associated accessories listed above are intended to be embedded into finished RFID products and SkyeTek is not required to label these products in accordance with the China RoHS directive labeling requirements. SkyeTek's embeddable products specified above meet all RoHS material requirements and final products can be labeled with Logo 1 (example shown below) as defined in the China RoHS directive.

In no case does SkyeTek, Inc stock the above products in both non-RoHS and RoHS compliant versions. Customers can be assured that when ordering RoHS compliant products they are receiving bonded stock that is RoHS compliant.

Sincerely,

Ian Elverson  
Director, Operations
